Germicidal Wipes

The right size wipes for every job

SMALL SURFACES

6" x 5"

Clorox® Germicidal Wipes

PERFECT FOR:

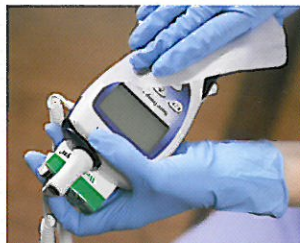

- Everyday disinfection done by nurses
- High consumption and frequent usage
- Disinfection and cleaning of medical equipment such as:

Glucometers
 BP Monitors
 IV Pumps
 Stethoscopes
 Remote Controls
 Exterior Surface of Ultrasound Transducers
 Telephones and Keyboards
 Nurse Call Cords
 Similar Handheld Devices

THE INFORMED CHOICE:

Versus a leading quat wipe competitor, 6" x 5" Clorox® Germicidal Wipes have:

- 6x shorter contact time against most bacteria*
- 23 more kill claims
- 3x stronger wipe
- 55% heavier wipe
- 2x better cleaning power based on lab tests using ASTM bathroom soil

MULTIPURPOSE

6.75" x 9"

Clorox® Germicidal Wipes

PERFECT FOR:

- General purpose cleaning and disinfecting
 - Spills
 - Everyday patient room cleaning:
- Wheelchairs
 Dialysis Machines
 Counters
 Desktops
 Carts
 Bedrails
 Computers on Wheels

THE INFORMED CHOICE:

Versus a leading quat wipe competitor, 6.75" x 9" Clorox® Germicidal Wipes have:

- 6x shorter contact time against most bacteria*
- 23 more kill claims
- 3x stronger wipe
- 55% heavier wipe
- 2x better cleaning power based on lab tests using ASTM bathroom soil

TERMINAL CLEANING

12" x 12"

Clorox® Germicidal Wipes

PERFECT FOR:

- Terminal cleaning
 - Environmental Services
 - Cleaning and disinfecting large surfaces such as:
- Patient Rooms
 Coated Mattress Covers
 Bed Areas
 Counters
 Ledges
 Sills
 Bathroom and Shower Fixtures

THE INFORMED CHOICE:

Versus a dilute solution with traditional cloths, 12" x 12" Clorox® Germicidal Wipes are:

- Ready to use: eliminates formula mixing and reduces labor costs
- Premoistened to ensure proper concentration
- Disposable to help reduce risk of cross-contamination
- A controlled application that protects EVS from spills

Use as directed on hard, nonporous surfaces
*Based on Federal master label usage instructions/contact times for E. coli, MRSA, P. aeruginosa, S. enterica and S. aureus
