SOLUTION.™ **SBS**

Made in the USA 

**Heritage Heavy-Duty Hand Cleaner utilizes state of the art skincare technology to clean and soothe the skin.**

## The Heritage Story

Bill and Ron

Heritage™ Heavy-Duty Hand Cleaner is not just made here in North Carolina, the heart of Race Country USA, it was born here. We have lots of NASCAR® fans working in our North Carolina plant, DEB SBS Inc., where we manufacture soap and other skincare products for the workplace.

In fact, Bill and Ron are the reasons that Heritage came about. Bill, who works on our maintenance crew, kept getting thick grease, tar, oil and other fluids on his hands, both at work and at the track. To remove the grime Bill would wash his hands with our strongest heavy-duty cleansers, like citrus oil with natural cornmeal scrubbers or lotion soap with plastic microbead scrubbers. At break time Bill would talk cars,

trucks and drivers with Ron, our chemist whose job is to help develop new products for DEB SBS. One day Bill mentioned to Ron that he was working on a car at his house and when he started to clean up all his bottles of cleanser were practically empty. Hurriedly he squeezed all the remaining scrubber products into one bottle, shook it up and poured the mix into his hands. When he scrubbed and rinsed, his hands got clean really fast – faster than usual!

Ron had an idea. If Bill's hands cleaned up faster with a mixture combining natural scrubber products and plastic microbead scrubber products, why not intentionally develop one product with both scrubbers that offers a new level of cleaning power? Ron brought Bill into the lab and the two started to experiment with scrubbers, cleansers and moisturizers. Their goal was to create one product that completely erases the heavy grime that working on cars and machines can leave on the hands, but that will not dry out the skin. Frequently washed skin can dry and crack.

That is how Heritage Heavy-Duty Hand Cleaner was born – as an experiment combining the cleaning and moisturizing power of several products from DEB SBS' long history of skincare solutions. The result is a superior cleanser with twice the scrubbing action of typical heavy-duty products, plus rich moisturizers to soften and soothe skin. It is mild on your hands ... but not on grime. And because it uses the formulas and materials we already work with, you will not find any high-dollar development costs buried in the price.

You can talk to our production folks about how we manufacture Heritage or to our salespeople about where we sell it. But if you really want to know why Heritage Heavy-Duty Hand Cleaner is good enough for a pit crew but priced right for the at-home mechanic, just ask Bill and Ron!

**Just ask Bill and Ron!**

## Try our other Skincare Products!

DEB SBS Inc., manufactures quality products for your most demanding at-work skin care needs: Protective and restorative creams, heavy-duty and specialty cleansers, gentle lotion soaps, foam soaps, antibacterial cleansers, instant sanitizing gel, non-alcohol and non-aerosol foaming sanitizers, plus durable dispensers with key locks to prevent vandalism.
