HYDRO-SQUEEGEE

**CLEAN UP
 LIKE NEVER
 BEFORE**

**ON ANY
 SURFACE**

Ready to Blast Off!

Surface clean-up just got easier with the heavy duty Hydro Squeegee. The combination high-pressure water jets followed by a floor squeegee tackles the toughest clean-ups in one easy system.

By simply attaching the quick connector to a standard water hose and twisting the on/off valve, water is delivered to six controlled high-pressure nozzles to blast away dirt and debris. The squeegee's moss foam rubber blade adapts to clean different surfaces like

On Concrete

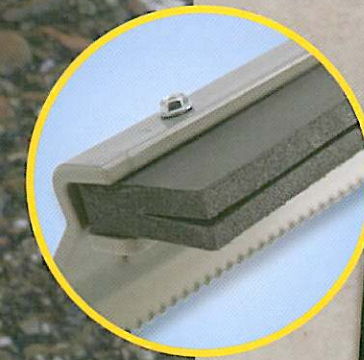

concrete, brick, asphalt and tile. On the flip side is a serrated scraper that is ideal for removing ice, mud and other hardened matter. The flexibility of the Hydro Squeegee makes it the perfect tool for use in factories, barns, maintenance facilities and in food service applications. When it comes to floor clean-up, nothing works better than a floor squeegee. Combined with the power of high-pressure water, virtually no floor surface is a match for the Hydro Squeegee.

On Brick

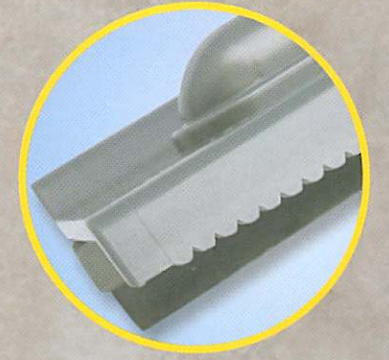

The Floor Squeegee That Does It All, Has It All

Quick connector fits standard water hose

Closed cell squeegee blades conform to surfaces

Serrated scraper for ice, mud, tough debris

On Asphalt

On Tile

Six high-pressure jets blast dirt and debris
