INVISIBLE PROBLEM

Germs and bacteria that cause common illnesses are invisible to the naked eye.

In a busy working environment these germs and bacteria can quickly and easily spread. With an increasing number of employees choosing to self-medicate and continue working, harmful germs and bacteria in the workplace present a worrying problem for employers. Illnesses not only lower staff morale, but also have a harmful effect on productivity – making your staff and your business suffer.

“Studies show good hand hygiene practices can reduce illness, absenteeism and associated costs by up to 50%”

INSTANT SOLUTION!

New Deb InstantFOAM™ hand sanitizers put infection control in your hands, killing more than 99.99% of many germs and bacteria that cause common illnesses.

NEW Deb InstantFOAM™ alcohol hand sanitizer and InstantFOAM™ non-alcohol hand sanitizers utilize the power of Deb Foam Technology®. With no sticky gelling agents or water required, the unique and refreshing foam formulas sanitize hands quickly and effectively.

Highly effective

- Instant sanitizing action
- Kills more than 99.99% of many common germs in just 15 seconds
- Spreads rapidly to cover the hands quickly

Convenient

- No water required – can be used anywhere
- Available in a range of sizes for use in different working environments
- Quick and easy to apply

Pleasant to use

- No gelling agents or polymers that leave a sticky residue on hands
- Built-in skin conditioners leave hands feeling soft and smooth
- Hypoallergenic* – minimizes the risk of allergic reactions

* only applies to InstantFOAM™ alcohol sanitizer and non-alcohol fragrance, dye free sanitizer

Invisible problem – Instant solution!

Instant sanitizing action - no water required!

Deb Foam Technology® blasts off bacteria

Deb's unique foam-based formulas revolutionize the way germs are removed from hands.

Unlike traditional gels and liquids, Deb Foam Technology® harnesses the power of foam, releasing over 3,000 bubbles in each shot to quickly attack and kill harmful germs and bacteria all over the hands.

Following ground-breaking research, Deb discovered the explosive reaction of the bubbles in foam effectively blasts off micro-organisms and harmful bacteria on contact. Deb InstantFOAM™ hand sanitizers have been extensively tested to be effective against many of the bacteria and viruses that cause common illnesses.

Foam bubbles act like marbles rolling over the hands to the fingertips, allowing them to spread four times more easily than traditional gels.

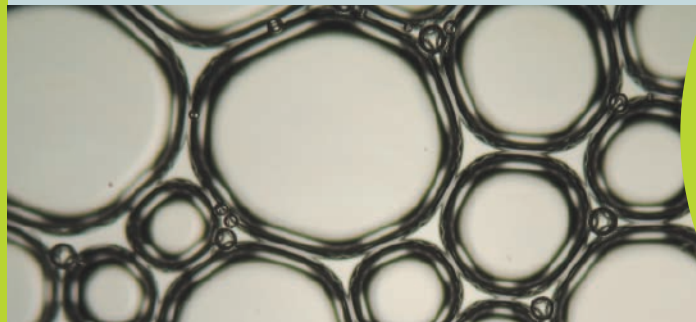

REDUCES RISK...

- ...of the spread of harmful germs
- ...of illness and absenteeism
- ...of associated costs and inconvenience

INCREASES WELL-BEING

- Freshens hands
- Improves skin condition
- Can be used anywhere
