

TFII

Touch Free Dispenser

Be the world's leading away from home
skin care company

CAN A SOAP DISPENSER BE BEAUTIFUL?

Not before now. Deb TFII is the next generation of Touch Free hand hygiene dispensing systems. Sleek, sophisticated worry-free performance, we guarantee it.

Incorporates the latest infrared sensing technology with patented Deb Foam Technology to provide a system that is ideal for automatic touch free soap and sanitizer dispensing applications.

On walls, on stands, in hallways, patient rooms and public washrooms Deb TFII meets all the requirements.

Attractive Stock Color Choices

Available in four
image enhancing
color
combinations.

The Power of Silver

All Deb dispensers are Biocote® protected. Biocote® is a silver-based antimicrobial agent that is incorporated during the manufacturing process and inhibits the growth of a broad spectrum of bacteria and molds. Biocote® will not wear out or rub off over time, making it effective for the lifetime of the dispenser.

DISTINGUISHED PERFORMANCE

Long Battery Life

The power provided by the 4 D-cell batteries will provide up to 92,000 applications or approximately three years, whichever comes first. The initial set of batteries is provided with the dispenser.

Ultimate View Window

The attractive transparent cover obscures the dispenser mechanics while providing clear visibility of the content level without opening the dispenser.

Locking Cabinet with Keyless Option

Deb recommends protecting the contents of the dispenser by utilizing the standard keyed locking system, however, if preferred, the cabinet can be easily converted to keyless non-locking.

Large Capacity

1200mL of hand cleansing products providing approximately 1780 applications and 1000mL of InstantFOAM alcohol hand sanitizer providing 1400 applications.

Recyclable Cartridge

Cartridges and inserts are molded from HDPE and can be included with recycling programs that accept this common type of plastic.

Integrated Catch Tray

Prevents product from landing on floors and walls if the dispenser is accidentally activated or misused.

Modular Design

In the unlikely event that the Deb TFII dispenser needs maintenance, the mechanics can be repaired or replaced without removing the dispenser from the wall or floor stand.

ADA Compliant

Extends less than 4 inches from the wall as required for all ingress and egress locations.

Custom Design Capability

Our market leading Custom Dispenser Service incorporates cutting edge print technology enabling our dispensers to be uniquely tailored to your individual specification.

Make it your own.

TFII PRODUCT GUIDE

Cleansers and Sanitizers

#AZU120TF
Deb® Azure FOAM Wash
